October 2025: Sonnedix and Osaka Gas break ground on Japan's largest renewable battery energy storage (BESS) project. Contracts also include Toshiba Energy ...

Which companies in Osaka Japan have vanadium battery energy storage Tesla and Sumitomo Electric have both been selected to supply energy storage projects in Japan. Tesla will supply ...

Sumitomo Electric Industries has installed a vanadium redox flow battery at Osaka Metropolitan University as part of a trial to optimize ...

Sumitomo Electric remains committed to reducing greenhouse gas emissions, accelerating renewable energy adoption, and advancing the development of smart ...

Osaka Gas and Sonnedix prepare Japan's "largest renewable battery storage facility"

Sumitomo Electric Industries has followed up the US launch of its newest vanadium redox flow battery (VRFB) technology, announcing a deal in Japan. The company ...

Sumitomo Electric Industries, Ltd. has successfully delivered its advanced vanadium redox flow (VRF) battery system to the newly constructed "Innovation Academy ...

Did you know Osaka is becoming a hub for next-generation energy storage? Let's explore how local innovators are using vanadium batteries to reshape power management.

With virtually no fire risk, long service life, and stable operation, VRF batteries are attracting attention as an optimal, safe and sustainable storage solution. They are particularly ...
