How much does a 50kw Solar System cost in Australia?

For a more exact figure, contact our specialists for a free quote. For commercial 50kW solar systems in Australia you will be looking at starting prices of \$45,000 to \$50,000 after rebate, excluding GST. For higher quality components from top tier manufacturers with highly efficient inverters the prices will start from \$55,000.

Who are NZ solar installers?

Trusted by NZ installers. We supply premium solar panels, inverters, batteries, cables, and mounting systems -- all in stock locally for fast delivery. Our global brand partnerships mean proven performance and reliability. Expect sharp pricing, responsive service, and tech you can trust -- so your installs are faster, easier, and more profitable.

What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.
